SCOUT MEET  
HELD HERE ON  
DOMINION DAY

Threatening Weather Keeps  
Some From Distance Away

For a time last Tuesday morning looked as though it would be necessary to call off the Scout meet for this district which was killed for here on that day, on account of the threatening weather. However, shortly after noon, the weather cleared, and although quite cool, the arrival of visitors from all districts was the signal for proceeding with the program as previously arranged. All assembled at the football ground and it was nothing before quite a large crowd of spectators had gathered to witness the sports.

Owing to the threatening weather, Scouts from a distance were unable to attend.

The first event was a baseball match between the senior Scouts of Medicine Hat and Redcliff. A nine inning

game was decided on and so evenly were the teams matched that the play was close and exciting from start to finish. Redcliff took a slight lead in the first half of the third and maintained it till the seventh when in their half the visitors get a lead of one run and held it through to the finish. The score at the end of the game was 6 to 5 in favor of Medicine Hat.

The following were the winners in the different events:  
Junior Events for Scouts 12 Years and under:  
100-yard dash—1st, A. Moffatt; 2nd, W. Rutherford.  
Sack Race—1st, W. Rutherford, 2nd, L. Hicks.  
Running Long Jump—1st, E. Walsingham, 2nd, W. Rutherford.

Three-legged race—1st, G. Thompson and G. Ollaphant; 2nd, J. Podesta and A. Moffatt.

Wheel-barrow race—1st, W. Rutherford and E. Walmsley; 2nd, L. McGee and L. Ginther.

Fire-Laying and Lighting—1st, Fifth Avenue Brigade; 2nd, St. Barnabas Brigade, both Medicine Hat.

Relay Race—1st, W. Rutherford; 2nd, L. Ginther's team.

Snow Machine Race—1st, W. Rutherford; 2nd, K. Knight.  
 Senior Events, for Scouts Over 12.  
 High Jump—1st, R. Stoner; 2nd, E. Ainsley.  
 Running Broad Jump—1st, H. Stoner; 2nd, E. Ainsley.  
 Hop, Step and Jump—1st, H. Stoner; 2nd, McConnell.  
 Fire Laying and Lighting—1st, Medicine Hat; 2nd, Redcliff.  
 Firearms Lift—1st, J. Moore; 2nd,

**First Dance on  
G.W.V.A. Pavillion**

If the large crowd which attended the opening of the G. W. V. A. pavilion in the park here last Tuesday evening, and the many words of praise

is to the manner in which the affair was conducted, are any criterion, there is no doubt that this will be one of the most popular places in town this summer, and that its success is already assured.

Shortly after dark the strains of the dance music could be heard all over town and it was not long before a throng who could wend their way toward the park. Many, no doubt, went to

intending to look on and listen, but the excellent music and inviting platform was too big a temptation.' As a result the gate-keeper was kept busy all evening and the committee in charge was well repaid for their trouble.

It is the intention of the G. W. A. to have regular dances on this platform all through the season and we have no doubt that it will be well patronized. The next dance will be on a night (Thursday) after the football season.

match. Watch for further announcements as to the nights when this ready popular amusement spot will open for the public.

## THE WORM WILL TURN.

There is an old saying that "the worm will turn sometime." If there are many more exposures such as have been brought out before cost of living commission lately, it is only reasonable to assume that a general worm turning season is about at hand. In this connection the worms form a large percentage of our population which for about five years now has been batted about from pillar to post, by almost every organization on the calendar from the federal government, and its employees down to the One Big Union and its agitators. For the purpose of this article we use the word "worm" as an allegory, symbolically representing about three-quarters of the people of Canada. Figuring our present population at eight millions it can readily be seen that we have about six million worms, so that when the worm turning process begins it will make the Winnipeg affair look like a Sunday school picnic.

From August 14th, 1914, to November 11th, 1916, this six million worms, among whom were two million wage earners who were depended upon, to "keep the home fires burning," put their shoulders to the wheel with a firm determination to do their part to see the war through to a successful finish. They observed the food regulations, did their share of Red Cross work, contributed to the Belgium relief, and French emergency funds, bought and sold Victory Bonds and Thrift Stamps, and cheerfully responded to every call made upon their time and purse so far as was possible. In a large majority of cases this was done at great personal sacrifice, as very few of the worm class had their salaries increased in anything like the proportion that the cost of living was going up. Besides all this the worms were being soaked on all sides because of demands for increased wages of almost every organized union. Every form of labor that received an increase of wages meant that the class of goods they produced went up in price and the worms had to pay the piper. But they all took their medicine cheerfully, feeling that it was all part of the war game and that they must hang on, if only by the eyebrows, till the war was over.

Now the war is over and what do we find. Foreigners and aliens have gone through it living on the fat of the land, and now have good fat bank accounts, while the worms, the back bone of the country, who have staked their all on the altar of loyalty and devotion, are still struggling for an existence. To make matters worse we learn from evidence taken by commissions that the throttle of profiteering has been pulled wide open and the engine of trade in foodstuffs has been running at random.

Yes, it's about time for the worm to turn, and although these investigating commissions are running away behind time there is such a thing as making up for lost time, and unless some attempt is made to do this—well then the worms will be heard from.

## PEACE CELEBRATION.

According to press reports, Saturday, July 19th, has been fixed as the day on which all Canada will celebrate peace. As this does not leave much time for preparation we would suggest that some steps be taken at once in order that the day may be fittingly observed here.

No doubt every city, town and village in the Dominion will observe the day in some suitable way, and as Redcliff has a most enviable record in the number who went to the front from this town and district, and has been exceedingly fortunate in the large percentage who have returned in good health and spirits, there is possibly no town that will have greater cause for entering into the spirit of the occasion more whole heartedly than we have.

Like all other similar undertakings this one must have some recognized leader in the movement, and as the celebration should be non-denominational, but rather a citizens' affair, we would suggest that the preliminary steps be taken by the town council.

## SETTLING UP DAY.

It is to be hoped that all will ponder carefully the note written to Germany by Premier Clemenceau which accompanied the revised peace treaty handed last week to the German agents before wasting any sympathy on the severity of the peace terms, Clemenceau is always at his best in a forceful statement of hard facts. His final word to the Hun is clear-cut, outspoken, cutting at times, and at times bitter and indignant. At view of the war's causes and effects is a convincing condensation, very much needed during the present widespread epidemic of pacifism.

It may be possible that those far removed from the scenes of conflict would be willing to forget the past and deal leniently with our one time enemies. But, overseas, where they are next door to the Boche and were daily witnesses of his years of awful carnage and devilish cruelties, they do not forget so easily. Clemenceau shows how the wounds of Europe are still gaping and bleeding and will remain so for many a day. He reminds the Hun that his record is the blackest outside of Hell; that he has been guilty of infamous too numerous to recapitulate and that he must pay the penalty.

Clemenceau shuts the mouths of the German hypocrites who pretend that only their war lords were responsible for the holocaust, by emphasizing that throughout the struggle "the

people supported the war, voted the credits, subscribed to the war loans, obeyed every order, however savage, of their government."

The settling up day is at hand and in that settling up Germany is once more reminded that "the way of the transgressor is hard."

On his return from the east Premier Stewart announced that the provincial government proposes to continue the survey work in connection with extending the program of irrigation for Southern Alberta. As there is no part of the province where this scheme could be given a better try-out and where irrigation could do more good than right around here, some movement should be started to bring the matter to the attention of the premier.

The great success of the opening night of the G. W. V. A. dancing pavilion in the park warrants the prediction that this will be one of the most popular spots in town for the balance of the season. This being the case it might be a good idea if arrangements were made to have more lights placed around the pavilion. Otherwise a fellow might go through a whole dance before he discovered he had the wrong partner.

On July 1st the United States went dry except for the sale of near beer and light wines. When our cousins across the line start making plans for their holidays they will now likely overlook the old slogan, "See America First." The question will now be "Where Shall We Go?"

This week we publish in another column a review of the new "Tax Recovery Act" as amended at the last session of the legislature. As it goes fully into the matter we recommend its perusal to our readers.

Up in Calgary this week the doctors and druggists are reported as doing a big business in liquor prescriptions. Six doctors have gone their limit of 100 for the week. It's strange how these small fair make so many people sick.

Forty students in the military college at Budapest have been executed by order of the Hungarian Communist government, according to advices received.

The Krupp works at Munich have been sold to Americans according to dispatches from Munich, quoting news papers there. It is added several industrial concerns in the Bavarian capital have also passed into American hands.

CANADIAN OVERSEAS ORCHESTRA

The music of the fourth day is in the hands of the Canadian Overseas Orchestra which was organized and coached by Lieut. J. B. Hunter, the noted teacher, band and orchestral director of Toronto. Every member of the Orchestra has seen service overseas, and the day for their appearance on the Chautauqua should be a red-letter one. The director, Mr. Henri Sobier, is a man of mature musical experience both as instrumentalist and director, and the program, as arranged, will please residents and music lovers alike. Ranging from the old and modern classical to the popular folk songs and patriotic airs.

## THE TAX RECOVERY ACT

The various municipal acts in force in the Province provide for forfeiture proceedings being taken against land on which taxes are in arrears. By these proceedings the title to the land is forfeited to the municipality, subject to redemption within a year, and if the land is not redeemed, then it may be sold by the municipality. This method of Tax Enforcement has proved to be both expensive and tedious, as it requires the making out of a Tax Enforcement Return; abstracts of title are required to be secured from the Land Titles Office for all lands on the said Tax Enforcement Return; notices have to be sent by registered mail at least sixty days prior to date of the Court at which the Tax Enforcement Return is to be confirmed to all parties having any interest in the land and notice of Court has to be advertised in the local newspaper and in the Alberta Gazette. After the Tax Enforcement Return has been confirmed additional abstracts have to be obtained, two more sets of notices have to be issued and advertisements again inserted in local newspapers and Alberta Gazette, giving date of final forfeiture. If the land is finally sold, it is at least fourteen months from the date of commencement of forfeiture proceedings before the municipality realises all its taxes, and if, as frequently happens in urban municipalities, the land cannot be sold at all, the municipality does not receive its taxes and in addition it is at a large amount spent in obtaining abstracts, printing and mailing special notice, advertising date of court, advertising date of final forfeiture and so on.

Because these proceedings were so expensive, burdensome and unsatisfactory, the Hon. A. G. McKeay, minister of municipal affairs, at the last session of the legislature, introduced legislation under the name of the Tax Recovery Act, which will greatly simplify and reduce the expense of the Tax Enforcement proceedings in future.

Under the Tax Recovery Act, lands on which taxes are in arrears on the first day of July of the year following that in which they are levied, are liable to be sold for taxes and the treasurer, assessor or collector, as the case may be, of each city, town, village or municipal district shall, on or before the 15th day of August in each year, submit to the mayor or mayor of the municipality, a list of all lands that are liable to be sold for taxes. The mayor or mayor, on satisfying himself that the list is correct, gives the proper official a warrant authorizing him to advertise for sale all the lands included in such list. Such sale is required to be advertised once a week for two consecutive weeks in a newspaper or newspapers published in the municipality, or if there is no newspaper published therein, in a newspaper circulating in the municipality. Such advertisement must be published not less than six weeks before the date of sale and is required to contain a list of the lands to be sold. In addition to the publication of the list, as above mentioned, there shall be published once during each week after the period of two weeks above mentioned, but prior to date of sale, a notice of such sale, a statement as to where the list of lands may be seen. Notice of the sale is also required to be published in two issues of the Alberta Gazette. The lands to be sold are not less than two weeks before the date of sale. No lands, the title to which is vested in the Crown, can be included in such sale.

Lands so offered for sale shall be sold to the highest bidder, and if they cannot be sold for the full amount of the arrears of taxes and costs, they may be sold for a lesser sum, subject, however, to a minimum value that may be placed upon them by the council of the municipality. This minimum value shall not be advertised, but shall be treated by the treasurer as the upset selling price. Any lands which are not sold at such a sale shall be included in the list of lands offered for sale the following year. The purchaser at the Tax Sale will only be required to pay at date of sale the amount due the municipality for arrears of taxes and costs even if the land is sold for more than the arrears of taxes and costs.

As soon as the sale is completed, a return showing the lands sold will be sent to the Registrar of the Land Titles Office for the Registration District in which the land is situated, who shall register against such land a memorandum of sale, so that any prospective purchaser or money lender may be protected.

All lands sold at a tax sale are subject to redemption within a period of one year from the date of sale. Where lands sold are not redeemed by the end of the year all parties shown by the record of the Land Titles Office to be interested in any way in the land will forthwith be notified of that fact by registered mail, and after a period of sixty days has elapsed from the expiration of the redemption period, a

return of the unredeemed lands will be submitted to a Judge of the District Court, who, on being satisfied that due notice has been given and that all matters in connection with the proceedings are regular, shall make such order as to transfer as he deems advisable and in accordance with this order the treasurer shall then issue transfer to any tax sale purchaser, on receiving from him payment of the balance outstanding, and such transfer shall entitle the purchaser to an indefeasible title, except as to claims of the municipality or the Crown. Any monies paid to the municipality over and above the taxes due shall be paid to the persons declared by an order of a Judge of the District Court to be entitled thereto.

By comparing the procedure under the Tax Recovery Act with the provisions in regard to Tax Enforcement that have hitherto been in force, it will be noted that under the Tax Recovery Act it is only necessary for the municipality to obtain abstracts of title and to send notice by registered mail, in connection with the lands which are sold and not redeemed, whereas under the forfeiture proceedings that have been in force under our municipal acts, it is necessary to obtain abstracts of title of all lands in which taxes are in arrears, to send notice by registered mail to all parties shown to be interested, then during the year allowed for redemption after the land has been forfeited, it is necessary for another set of abstracts to be secured and to send notices to be sent to each person shown to be interested in the land, and after all this trouble and expense the municipality in many cases is unable to collect any taxes whatever.

The Tax Recovery Act provides for the immediate sale of land for taxes without waiting for a year as required by the forfeiture proceedings. If the land can be sold at all, this brings in the taxes immediately. If it cannot be sold, very little expense has been incurred. In addition to making provision whereby municipalities may obtain their taxes more quickly, the Tax Recovery Act provides a simple method whereby action may be taken at an expense that will not be more than one-third of what it was under the forfeiture proceedings set forth in different municipal acts, and if the land is worth the taxes the municipality gets results quickly, while if the land will not sell, the municipality has not been put to any great expense.

The provisions of the Tax Recovery Act will come into force in the year 1920, and on and after the year 1920 the Tax Enforcement proceedings provided for in the municipal acts will cease to be operative except insofar as proceedings instituted prior to the end of the current year are concerned.

Several British airplanes will start across the Pacific on August 15, from San Diego, Calif., bound for Australia, according to a statement made by Capt. Wm. McDonald, of Melbourne, formerly in the Canadian Flying Force.

## Commission Suggests an Eight Hour Day

Mr. Robert Borden, in the house tabled the majority and minority reports of the commission on industrial relations. The majority report, which is signed by Judge Matthews, Carl Borden, Charles H. Harrison, Tom Meade and John W. Brown, recommends legislation for a maximum work day of eight hours with weekly rest of not less than 24 hours, with

indefinite wage, especially for women, girls and unskilled labor also government action to relieve unemployment through public works, to help the building of workers' homes, to restore full employment of ships and to establish a bureau for promoting industrial councils to improve relations between employers and workers. Inquiry by experts is suggested with a view to early legislation as to the system of proportional representation in parliamentary elections; also state insurance against unemployment, sickness invalidity and old age.

## Ex-Kaiser Will be Tried in London

The prime minister, Mr. Lloyd George, delivered in the house of commons an explanation of the peace treaty which he described as the most momentous document to which the British empire ever affixed its seal.

Though during the effect of his long labors at Paris and lacking his usual fire, the prime minister at times made champagne utterances, and was loudly cheered. His announcement that the former German emperor would soon be placed on trial before a tribunal sitting in London was cheered most of all, while his presentation of the Anglo-French convention providing for British aid if Germany should attack France, unprovoked—a convention analogue to one between the United States and France—was greeted with unreserved approval.

## Crop Report from Dept. of Agriculture

A survey of crops on June 15th generally favorable conditions for the stand of crop throughout the province. This was subject to much limiting factors as cutworms in rather wide distribution over the province but causing damage to the extent of 5 per cent of the crop in only a few localities, chiefly in the southern part of the province and a more serious general limiting factor represented in the persistence of drying winds extending from the boundary to Edmonton, but being worst in the area swept by the strong Chinook through Macleod and the country north as far as High River and south to the boundary. The effect of the rapidly drying winds was necessarily much greater on land other than summer fallow. Some hay had already shown backward to the point of promising less than half a crop.

A special cable to the Montreal Star says that Acting Premier Watt of Australia, in the federal parliament, announced that the minister of customs is considering reciprocity with Canada in connection with the new tariff proposals.

## G.W.V.A. Convention Endorses the Bonus

Never was the solidarity, the co-operation and the comradeship of returned men, and especially in the G. W. V. A. better exemplified than it was at the Dominion convention now in session at Vancouver when the famous Calgary resolution regarding the proposed \$2,000 cash bonus came up for discussion. After two sessions and a six-hour debate a compromise resolution was adopted which, amid scenes of tremendous enthusiasm, was carried with but two dissenting voices. The compromise resolution read as follows:

"Resolved, that we urge upon the government of Canada, the necessity of the immediate adoption of a system of bonus payments as the most satisfactory and effective means of re-establishing the soldiers."

## ESTABLISHED 1875 IMPERIAL BANK OF CANADA

## ONE ACCOUNT

The joint savings account is the most practical arrangement for conducting the financial business of the home.

Should the husband be away, sick, or find it inconvenient to get to the Bank, his wife can make deposits or withdrawals without any trouble.

A joint account means one account to look after instead of two. Open one today.
